Lounge and bobble shelf: image request

Images only. Make rendered pictures of four pieces of lounge furniture. A developer builds the 3D model from your pictures, so do not make a 3D file.

1. What it is

A relaxed corner of the arcade. Four separate objects, each needing its own set of pictures: (1) a leather armchair, (2) a wooden board-game table with a game on it, (3) a wooden wall shelf unit holding bobble heads, (4) a small side lamp. Warm, worn, early-1990s feel.

Real size: **armchair 0.85 m wide, 0.9 m tall, 0.85 m deep; game table 1.2 m across, 0.7 m tall; shelf unit 1.6 m wide, 0.3 m deep, 1.2 m tall; lamp 0.2 m wide, 0.5 m tall**. Keep these proportions in every view.

2. What exists now (for style and shape)

Leather texture.

Wood texture.

Board game art.

Bobble head art.

Bobble head art.

Mood: dark, moody, realistic early-1990s arcade. Real materials with real reflections. No flat clip-art, no word-art lettering, no cheap frames.

3. Images to produce (11 images)

For the build views: perfectly flat orthographic camera (no perspective, no tilt), plain pure black background, even soft light with no strong shadows and no floor, the object fills the frame with the same margin, and every build view uses the **same scale** so they line up. Output 2048 px on the longest side. Crisp edges, no glow haze or bloom beyond the edge.

#	Image	Exact specification
1	ARMCHAIR front, straight on	Orthographic.
2	ARMCHAIR side, straight on	Orthographic, exactly 90 degrees.
3	ARMCHAIR three-quarter	Perspective, eye height.
4	GAME TABLE side, straight on	Orthographic. Shows legs and table edge.
5	GAME TABLE top, straight down	Orthographic, board game laid out on it, with a few pieces and dice.
6	GAME TABLE three-quarter	Perspective.
7	SHELF front, straight on	Orthographic. Three shelves, empty, so models can be placed on them.
8	SHELF side, straight on	Orthographic. Brackets and depth.
9	SHELF three-quarter	Perspective with 6 bobble heads standing on it (any characters from the art above).
10	LAMP front and side	Both views on one image, orthographic.
11	MATERIALS sheet	Six seamless swatches: dark leather, worn oak, walnut, brass, lampshade fabric, felt game-table cloth.

Each object should be on its own black background. For the table, the top view must be seamless in colour at its edge.

4. Prompt to paste into Copilot

```
Make a set of rendered images of four pieces of lounge furniture for a dark, moody early-1990s arcade: a leather armchair, a wooden board-game table, a wooden bobble-head shelf unit, and a small side lamp. Real sizes: armchair 0.85 x 0.9 x 0.85 m, game table 1.2 m across and 0.7 m tall, shelf 1.6 m wide, 0.3 m deep, 1.2 m tall, lamp 0.2 x 0.5 m. Use the attached pictures for style, textures and bobble heads. Produce the 11 images listed in the attached brief. The orthographic ones must be flat (no perspective), on pure black, even soft light, same scale per object, 2048 px, crisp edges and no glow haze. Each image is a separate file. Realistic rendering, no clip-art, no word-art text.
